Draft FAR Changes

Part of a Quality Team Report

Draft FAR Changes

- LEGEND. Above the FAR text, a legend shows the date of the team report, type of rule, the Federal Acquisition Circular (FAC) upon which it was baselined, and how the line-in-line-out changes are marked.

Draft FAR Changes

- COMMERCIAL ITEMS, COTS ITEMS, BELOW SAT.
  - Any necessary changes to 12.503 through 12.505 (if a statute does not apply to commercial items);
  - 12.301(d) (if a clause that applies to commercial items is not required by statute or Executive order)
  - 52.212-5, 52.213-4, and 52.244-6) (if it applies to commercial items or below the SAT) ;

Draft FAR Changes

- SAM. If the draft rule contains a representation or certification that will be included in SAM, the appropriate changes have been made to 4.1202 and 52.204-8, and for commercial items 52.212-3.

- CROSS-REFERENCES. A search has been run through the FAR for the section and paragraph numbers being changed, to catch cross-references which need updating.

- OMB CLEARANCE NUMBER. If there is a new Paperwork Burden OMB clearance number, it has been added to the list at 1.106.

If the rule follows the receipt of public comments…

- BASELINE FOR FINAL RULE. The Word documents for the proposed or interim rule have been updated to show the FRN version as actually published in the Federal Register.
- HEADING. The documents have been further updated to show this is now a final rule.
